Patons® Shetland Chunky - New Shades!

A long-time favorite, Patons® Shetland Chunky is a great all-purpose yarn which is perfect for warm, cozy garments and accessories, and afghans too! The chunky weight means it's a quick knit. An acrylic-wool blend means it's machine washable and so easy to maintain. And best of all, it doesn't lose its softness or rich texture after washing or wearing. We have seven exciting new shades of Patons® Shetland Chunky to introduce. Contemporary and colorful, these shades look amazing in jaw-dropping garments, as accents in your home, or combined with the huge Patons® Shetland Chunky shade range in some colorwork or stripes!

Greetings from Patons®

Yarn – it's been bringing people together for centuries, and now we are two more lucky people that have found a beautiful friendship because of it! We first started bonding over our love of yarn, debating over knitting vs. crocheting, teaching each other new stitches and now it is one of the many sports we do together. We spend a lot of our time outside of work together, hiking, swimming, rock climbing, and of course crafting. Whether we are discussing if a new project should be crochet or knit, to use solids over variegates, or if we should wear matching outfits, one thing we agree on is Patons® Shetland Chunky. We both love the wool and acrylic blend, it is so soft and works up quickly. Suzanne just finished knitting a beautiful cabled blanket in Patons® Shetland Chunky Tweeds and Nicole is currently working on crocheting slippers. It is yarn that brought us together, and that keeps us so close-knit.
