Introducing Patons® Angora Bamboo

It's not often you see a yarn as lovely and luxurious as new Patons® Angora Bamboo, an exciting blend of Bamboo, Wool, and Angora. This all-natural yarn is incredibly soft to the touch. The bamboo content gives it an outstanding sheen and drape, while the angora content adds a subtle aura of softness. The stitch definition when worked up makes Patons® Angora Bamboo great for both cables and textured patterns. A true worsted weight, it knits up quickly without being too bulky - perfect for garments. Patons® Angora Bamboo also comes in a vibrant palette of colors that combine beautifully for fair isle designs or as stand alone striking solids. If you're getting tired of the same old yarns and projects - just one touch of Patons® Angora Bamboo and you'll be a believer.

Greetings from Patons®

Gayle,
Designer

Over the last few years knitters have been very lucky to play with all kinds of new yarns. One of the most exciting has been the bamboo blend. Our latest addition is Patons® Angora Bamboo which is a knitter's dream: gorgeous shades, beautiful drape, soft hand and the perfect versatile worsted weight. Design inspiration for this yarn came very easily to us. Its smooth texture inspired rich textures like the free pattern that I designed and you'll love to knit. The dramatic cable on the front is charted for extra clarity. We kept the back plain to speed up the process and add extra emphasis to the other textures.

In 'Luxury Knits' you'll find a colorful collection inspired by important folkloric trends and new 'twists' on cable designs. My favorite is the dolman jacket with fair isle sleeves worked side to side and the deep ribbed waistband. We used earthy shades for this design but it would also look great in reds or blues. The shade range mixes so beautifully, it's easy to make new combinations. I hope we have inspired you with these new ideas as much as Patons® Angora Bamboo has inspired us.
