Nicole, Designer

"My boyfriend loves hand knit socks and is excellent at dropping not so subtle hints about how luxurious they are and how he finds them to be far superior to store-bought ones. Who can resist knitting for such an appreciative recipient? Now, more than 10 pairs later, I have been informed that supply has finally met demand & I am free to focus on knitting socks for myself. I'm in love with the Fair Isle socks from Patons® [Socks in the City](#) - I'll just have to stake claim on them from the very first stitch."
