

New Fashion Yarns are Here!

Many of us are sad to see summer go, but it means one big thing — scarf weather is here! The nights are cooling off, meaning more and more excuses to show off new accessories. Just in time, here come Patons Moxie and Patons Wild Child, two amazing new yarns that will keep you celebrating the arrival of fall in style.

Introducing Patons Moxie

The next big fashion trend is here: introducing Patons Moxie, the easiest way to spice up your wardrobe and add something special. Patons Moxie is officially a super bulky yarn, but you can knit it with size 5.5 mm knitting needles and hooks. This unique yarn creates a dense, two-toned, fur-like appearance when knit or crocheted. Choose your shade to complement your fall coat and head out for a luxurious night on the town.

Introducing Patons Wild Child

You have to see Patons Wild Child to believe it. A stitched base strand with wild tufts of roving, Patons Wild

Child is one of the most unique yarns out on the market. In a neutral shade like Shirley (80008) or Mugsy (80040), the effect when knitted or crocheted resembles a raw fleece. But when worked up in one of the inspired multicolor shades, the yarn comes to life! Great for fall and winter accessories, for kids' projects, and anything that needs a boost of fun.
